

Response to Pre-Bid Queries

Date-25-03-2021

NIT No- EdCIL/DES/EDLP/Cloud-Hosting/2021/001

Name: Selection of Agency for Hosting of CMS application on Cloud Server.

The following response to pre-bid queries is made to the above tender

S.No	Organization	Chapter No.	Page No.	Clause as per RFP	Clarification Sought	Pre-Bid Query Response
1	Microsoft India	5.2 Pre-Qualification	21	The bidder should submit an undertaking from CSP that the CSP will provide system support to the bidder for at least next three years.	We have our own format of providing MAF , and contains content of similar nature, Hope that will be acceptable by EDCIL.	No Change. Refer Tender Document
2	Microsoft India	Chapter 6 , 6.1 General	25	The virtual machine 1 and virtual machine 2 should be in two different physical locations to support synchronous replication and 'Active-Active' deployment.	Active Active deployment is inclined towards a specific cloud OEM, we request you to modify the clause as below - The virtual machine 1 and virtual machine 2 should be in two different physical locations at least 100 km apart, to support high availability and 'Active-Active/Passive' deployment	No Change. Refer Tender Document
3	Microsoft India	Table:4, point 4, Object Storage	27	Storage Type: HDD Storage Amount:1000GB IOPS: >750	Looking at the concurrency (5%) of the total number of users the current IOPS mentioned in the RFP is too high , our recommendation is to normalize this to IOPS=500	No Change. Refer Tender Document

4	Microsoft India	Table:4, point 3, Block Storage	27	Storage Type: SSD Storage Amount:200GB IOPS: >750	Looking at the concurrency (5%) of the total number of users the current IOPS mentioned in the RFP is too high , our recommendation is to normalize this to IOPS=500	No Change. Refer Tender Document
5	Microsoft India	Table:4, point 5, Load Balancer	27	Application Load Balancer Throughput: 10000MBPS	10000MBPS Throughput of the application load balancer is specific to a cloud OEM. To our understanding Cloud service should support a front-end load balancer that takes requests from clients over the Internet and distributes them across the instances that are registered with the load balancer & Cloud service should support an internal back end load balancer that routes traffic to instances within private subnets. Hence, we request you to remove the Throughput: 10000MBPS mentioned in the RFP.	No Change. Refer Tender Document
6	Oneway IT Solutions Private Limited	5.2	22	5	Please provide the Relaxation to Startup for Turnover and Experience	No Change. Refer Tender Document
7	Oneway IT Solutions Private Limited	5.2	22	6	Please provide the Relaxation to Startup for Turnover and Experience	No Change. Refer Tender Document
8	Oneway IT Solutions Private Limited		2	Earnest Money Deposit	Please provide the Relaxation to Startup for provide relaxation EMD	No Change. Refer Tender Document
9	Mothersonsumi Infotech & Designs Ltd		2	Performance Bank Guarantee	There has been changes in the PBG amount and now it is 3% , Hope you will consider the same and will do the favorable .	No Change. Refer Tender Document

Note: Rest all terms & conditions of the tender will remain same.
